Leg	Distance	Start. Elev	End Elev.	Δ E	Time	Bearing
FS 2	(mi)	(Ft)	(Ft)	(Ft)	(Est)	
1	0.34	10,255	10,874	619	40-50mins	216
2	0.2	10,874	11,388	514	40-50mins	216
3	0.21	11,388	11,830	442	30-40mins	216
4	0.29	11,830	12,642	812	40-60mins	216

Notes and Nav. Strategies					
mostly skis and skins stay climbers right of Path Star B					
steeper section may require crampons or other steep snow climbing techniques.					
mixed travel techniques, flatter areas ski and skins and crampons or other steep snow climbing styles					
crampons or other steep snow climbing techniques					
Ski Star B or C from here

4	0.43	12,220	12,924	704	40-50mins	328, 47

Star Mountain Tour

Notes and Nav. Strategies					
South on Rd 399 skis and skins, assess layer needs so one doesnt overheat through the flat road travel					
Turn right, west, and start climb towards broad spine. mostly skis and skins, if snow surface is slick or impenetrable use crampons, turn left as you exit from under steep feature, rise up and around to have better view of broad spine, food/ drink here/ layer change.					
once on broad spine, continue up, Northwest, towards ridgeline, again mostly ski and skins or crampons if snow surface does not support climbing skins use					
pause here for layer change if need or food/drink, cont. NW to gain ridge and turn right, NNE, towards Star Mtn summit.

Leg	Distance	Start. Elev	End Elev.	Δ E	Time	Bearing	Notes and Nav. Strategies
BS 2	(mi)	(Ft)	(Ft)	(Ft)	(Est)		
1	1.8	10,119	10431	312	80-100mins	211	Rd 399 ski and skins assess personal layer needs
2	0.37	10,431	10,926	495	60-70mins	296,26	reach the center of large south-southeast facing path and angle left towards trees on climbers left work up through steeper terrain which may require crampons or other steep snow climbing style
3	0.36	10,926	11,723	797	60-80mins	320	Work up through trees till treeline is reached. trees provide shelter if needed. from here continue, NW, Ridge. Plan to use skis and skins through the trees with lower slope angles. assess as needed for crampons. Plan to adjust layers before leaving treeline, here to the ridge is more exposed to weather
4	0.19	11,723	12,063	340	30-45mins	320	Work through slightly steeper section towards ridgeline
5	0.27	12,063	12,662	599	55-60 mins	339, 47	continue on ridge around to the ENE towards star mtn summit
6	0.22	12662	12801	139	25-30mins	47	proceed towards summit if time allows assess descents
